ECO FOCUS PLANNING

**Planning for a
Sustainable
Future**

Eco Focus Planning is an environmental planning and consulting firm that specializes in infill projects, mixed-use developments, and low impact development. Located in Irvine, California, Eco Focus is able to lend its expertise throughout Southern California. Their forward thinking solutions and outstanding work in the region has proven them to be a top contender in the area.

Eco Focus works closely along side clients in order to form good relationships and create the best results for projects and the environment.

Our company has a diverse team of planners, environmental scientists, and architects that are qualified to take on a broad array of projects and ensure they surpass sustainability standards and leave little impact on the surrounding environment. With a value on advanced technology and innovative designs, projects are able to stay current and fresh for years after completion.

ECO FOCUS PLANNING

We are experienced in the CEQA and NEPA processes and can prepare EIR and EIS documents.
